A Special Note to Our Existing Customers

Welcome to AdvanceOnline's New Website!

In addition to the high-quality services and products you have come to expect from AdvanceOnline, here you will find some new resources that take advantage of the latest in Internet communications technology to deliver you up-to-date information on safety and compliance available from trade and government organizations such as the FMCSA, SafeStat, and our own industry experts. Take a poke around - we're sure you'll like what you see.

Our New-and-Improved LMS

We have worked diligently to design a new, state-of-the art Learning Management System to offer you more features than ever before. We took the best of the old system and added much more.

With the new system, making assignments, tracking progress and performance, accessing certificates, and generating reports is a snap. It's all at your fingertips with a simple click of the mouse.

Additionally, the courses are easier than ever to operate, with a new user-friendly interface, easy navigation, and updated features such as the autoplay option for narration.

Our Expanded Catalog

We are excited to present our new line of DOT Transportation Safety Institute (TSI) courses. Our team of experienced course developers worked closely with the content experts at TSI to create an online version of the live FMCSR courses offered by TSI in Oklahoma City. **We are the only site used by TSI for online FMCSR training.** Take a look at what we have to offer!

AdvanceOnline Solutions, Inc.

AdvanceOnline Solutions is a leading provider of Web-based DOT, OSHA, and health and safety, and human resource compliance training. An innovator in online training, AdvanceOnline is the first company to offer a Web-based OSHA 10-Hour Construction Safety course accepted by OSHA for issuing course completion cards and the only online training company to offer DOT-TSI certificate courses addressing Federal Motor Carrier Safety Regulations.

We Want Your Feedback

With our website, we aim to provide all the safety and compliance resources you need to help you have a safer work environment and comply with applicable Federal safety regulations. You don't have to search for answers anymore - you can find them right here. If you know a good resource we don't already have listed, give us a call or send us an email. We'd love to hear from you!
